

# Fly Neighborly

## Forum and Live Training Class

Tuesday, February 27th  
1:00 – 3:00 PM  
Room N258

### Learn about:

Helicopter **noise abatement procedures** and **flight techniques** that minimize the effects of helicopter noise emissions in person at Heli-Expo.

Fly Neighborly seeks to create better relationships between communities and helicopter operators by establishing noise mitigation techniques and increasing effective communication.

Take the Fly Neighborly Basic Training through the FAA WINGS program online at:
