

# For All Helicopter Pilots

## **“Making Life and Death Decisions”**

*An Interactive Case Study  
of a Fatal Helicopter Accident.*

### **A FREE WORKSHOP**

Join us in a deep discussion of a helicopter accident, where a good pilot attempted a good deed - but unfortunately ended in tragedy.

Thursday, December 13, 2018, from 6 pm to 8 pm

Location: Robinson Helicopter Company

2901 Airport Drive, Torrance, CA

Contact TC Corell at (909) 730-4107

#### Description:

Join us as we dive deep into one helicopter accident, discuss the tragedy of three lost lives, and help you see that many operational decisions are not black and white choices.

On Dec. 13, at the Robinson Helicopter headquarters, Torbjorn “TC” Corell, Chief Pilot at Southern California Edison, will lead an in-depth 90-minute session about a safety-conscious helicopter pilot who died while trying to fly a very noble mission. The workshop will use an extensive NTSB accident report, photos, animation, and pilot background materials as you weigh the consequences of each operational decision.

Sponsored by the International Helicopter Safety team ([www.IHST.org](http://www.IHST.org)), this “Go Local” workshop reviews accidents that happened to good pilots (like you) who often were trying to do great deeds with their helicopters. Participants will analyze the decision-making processes that can lead to disaster and determine what they can do to avoid falling into similar traps.

**What you learn here could save your life.**

Refreshments will be provided. Join us as we work together for a safer helicopter community.
